

Positive Pay

A business solution that helps to mitigate the risk of fraud on your business account.

Check fraud is the leading type of payment fraud today. Businesses and organizations are the primary targets of check fraudsters. It's a growing problem that costs businesses billions of dollars each year. Positive Pay provides the peace of mind that only authentic, authorized checks will be paid from your accounts.

Benefits of Positive Pay

- Positive Pay helps protect your account from counterfeit, duplicate, and altered checks.
- Business Online Banking is real time, so your account is protected as soon as we receive your issue file and items.
- Checks presented at our teller windows are also matched against your issue file to determine whether or not the item should be cashed.
- For your convenience, check issue files may be submitted in several formats via Business Online Banking 24 hours a day, 7 days a week.
- Easily integrated with account reconciliation programs.
- Saves you the time, money, and worry involved in dealing with check fraud.
